DUAL POWER
choose your battery

GET STARTED IN 3 STEPS

1. CHOOSE YOUR DUAL POWER TOOL

2. COMBINE WITH A 20V OR 40V DUAL POWER BATTERY

3. DON'T FORGET THE CHARGER

DISCOVER DUAL POWER.

THE NEXT GENERATION OF CORDLESS TOOLS

THE DUAL POWER BATTERY PLATFORM CONSISTS OF 20V AND 40V BATTERIES, WHICH ARE COMPATIBLE WITH AN EXTENSIVE RANGE OF CORDLESS TOOLS.

DUAL POWER HAS A SIMPLE, YET INNOVATIVE CONCEPT: THE 20V BATTERIES ARE COMPATIBLE WITH THE 20V TOOLS, WHEREAS THE 40V BATTERIES CAN POWER ALL DUAL POWER TOOLS. USING A 40V BATTERY ON A 20V TOOL WILL RESULT IN AN EVEN LONGER BATTERY RUN TIME.

THERE ARE A LARGE NUMBER OF CORDLESS DUAL POWER TOOLS AVAILABLE – POWER TOOLS AS WELL AS GARDEN TOOLS – WHICH PROVIDE MAXIMUM POWER, FREEDOM AND FLEXIBILITY.

BATTERIES AND CHARGER ARE SOLD SEPARATELY.

A BATTERY-POWERED FUTURE

Battery technology has given the DIY market a whole new dimension. The improved generation of batteries has helped to produce lightweight cordless tools with much more power and a longer runtime. Easy to use, no cables and no worries.

Battery powered tools have all the potential to outperform not only the corded tools, but also those that work on gasoline. The reduction in noise, fumes and carbon emissions are all part of the motivation behind the switch. It is clear that the future of the DIY-industry lays in quiet and eco-friendly battery-powered equipment.

20V OR 40V

FOR MORE THAN 100 TOOLS

No excess batteries and chargers

Buy the tools you need, without having to buy a new charger or battery each time. The extensive range offers everything you need for all your projects, from drill drivers to lawnmowers and radios.

Choose a starter kit

Choose a Dual Power starter kit, including one or more tools, a battery and a charger.

Bare tools

All Dual Power tools are available as bare units, without chargers or batteries. This way you spend less when you expand your power tool collection.

BENEFITS OF A LITHIUM-ION BATTERY

NO MEMORY EFFECT
CAN BE RECHARGED AT ANY TIME, NO MATTER WHAT LEVEL OF ENERGY CAPACITY IT RETAINS.

LONGER LIFESPAN
LASTS A LONG TIME, WITHOUT PERFORMANCE LOSS

LOW SELF-DISCHARGE
WILL NOT LOSE CHARGE BETWEEN USES

ECO-FRIENDLY
SCORES HIGH ON ENVIRONMENTAL FRIENDLINESS

HIGHER ENERGY DENSITY
PRESENTS MORE ENERGY IN A SMALLER VOLUME

LIGHTWEIGHT
GUARANTEES LESS USER FATIGUE AND MORE EASE OF USE

NEW GENERATION

DISCOVER OUR NEW GENERATION DUAL POWER BATTERIES:
20V and 40V Li-ion batteries with an even higher capacity.

BATTERY TECHNOLOGY

The higher the capacity, the longer a battery will run. The 20V battery has a capacity of 2000mAh. The 40V battery has a capacity of 2500 or 4000mAh when used on a 40V tool, but delivers an impressive 5000 or 8000mAh when combined with a 20V tool.

How is this possible? The 40V battery lends itself to both a series or parallel connection of its Li-ion cells. In a series connection (40V battery on 40V tool), each cell adds its voltage potential to obtain the double voltage of 40V. By connecting the Li-ion cells in parallel (40V battery on 20V tool), the result is an output with a double capacity: it will boost the capacity from 4000mAh to 8000mAh.

For lawn size up to	1200m²	500m²	250m²
Housing	Steel	Plastic	Plastic
Self-propelled	Yes	No	No
Brushless motor	Yes	Yes	Yes
Mulching function	Yes	Yes	Yes

The central cutting height adjustment is an easy and user-friendly way to change the lawnmowers' cutting height, no tools needed. As a rule of thumb, it is recommended to cut maximum 1/3 of the grass' height. Therefore it is important to chose the correct height setting. The wider the range and the more pre-defined positions, the more precise the end result will be.

The lawnmowers' mulching function helps to maintain a healthy and green lawn. Mulch is a fine layer of fine cut grass that decomposes rapidly, putting nutrients back into the soil. It also protects your lawn from heat and draught, by retaining water more easily. Mulch gets made by re-circulating and re-cutting the grass clippings under the mowing deck, after which it gets forcibly returned to the lawn.

BRUSHLESS MOTOR

GET TO KNOW THIS **NEW PRODUCT**

This cordless pressure washer from Dual Power is **ideal for use on the road**. The 20V pressure washer is equipped with a 6m long hose, which can draw water from remote sources, such as a lake, well or pond. Therefore, this is Dual Power tool is perfectly suited for cleaning road or mountain bikes after a muddy ride. It can also come in handy on holiday to give the car a quick rinse. The portable pressure washer can be attached to a regular tap as well, by using a standard garden hose.

The Dual Power pressure washer features a powerful **brushless motor**. It is more durable, extends the battery's autonomy and requires less maintenance. The washer has a flow rate of 170 litres per hour with a maximum water pressure of 25 bar. Switching between low and high pressure is easy.

The 5-in-1 pressure nozzle features **5 different spraying patterns**, ranging from a regular water jet to a powerful precision jet. Extra clean results can be achieved thanks to the detergent tank. It can be attached easily and provides perfectly clean results.
