## POWDP1550

This drill and impact driver set will be indispensable for any construction or renovation work. The two power tools are stored in a practical bag, together with two 20V Li-ion batteries and a charger.

The drill/screwdriver has a torque of 30Nm and can tackle all your DIY tasks around the house. It has 21+1 torque settings and two speed settings to choose from so you can always match the speed to the task at hand. The keyless chuck allows a quick change of bits up to 10mm.

The compact and lightweight 20V Li-ion screwdriver with impact function can cope with any screw or bolt. With a maximum tightening torque of 120 Nm, even the most difficult tasks seem a piece of cake. It has a variable speed and impact rate, so you can always match the speed to the task at hand.

Both tools are equipped with a soft grip and a built-in led light to illuminate the work surface.

Combine with a 20V or 40V Dual Power battery. Two 20V batteries and 20V/40V charger included.
