IMPACT SCREWDRIVER 20V - POWDP2010

This compact and lightweight 20V Li-ion screwdriver with impact function can cope with any screw or bolt. With a maximum tightening torque of 150 Nm, even the most difficult tasks seem a piece of cake.

It has a variable speed from 0 to 2900min⁻¹ and has an impact rate from 0 to 3300 strokes per minute. So you can always match the speed to the task at hand.

The POWDP2010 is equipped with 3 led lights at the front for an even light distribution. It clearly illuminates the work surface and allows you to work in darker places. The impact screwdriver also has a comfortable soft grip handle and a forward reverse function.

Combine with a 20V or 40V DUAL POWER battery. Battery not included.
