COFFEE MACHINE 40V - POWDP60810

Low on energy? This Dual Power coffeemaker provides all the necessary caffeine to finish each construction or renovation job. The machine is powered by a 2x20V battery and is therefore ideally suited for use on construction sites.

It comes with two different holders. This enables the coffeemaker to brew coffee with coffee pads, as well as ground coffee. The holders can be switched easily and they can be inserted in the machine completely hassle-free. When using ground coffee, the filter basket can be removed from the holder, so it is easier to clean.

The coffeemaker comes with a sturdy stainless-steel cup, that fits in the machine perfectly. The water tank is detachable, which makes filling it easy and convenient. Furthermore, it is equipped with a convenient, collapsible transport handle.

DISCOVER THE ENTIRE PRODUCT RANGE AT
WWW.DUAL-POWER.COM

Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

Which Dual Power batter is compatible?

This 40V coffeemaker is only compatible with the 2x20V Dual Power batteries.
