BATTERY 20V - POWDP9010
BATTERY 20V (SAMSUNG) - POWDP9020
BATTERY 40V - POWDP9035

Two batteries with a different voltage – 20V and 40V – to power a whole range of cordless tools. That is Dual Power.

The concept is simple but strong. The 20V battery fits on the 20V tools, the 40V battery activates the 40V tools. But here is where the real innovation steps in: you can also click the 40V battery on the 20V tools. Doing so will drastically prolong the runtime.

There are two 20V batteries (2500 mAh Samsung / 1500 mAh) and a 40V battery to choose from.
