POWDPG80400 PRESSURE SPRAYER 4L 20V

Spraying plants in the garden or green house, without having to pump the whole time? It is possible thanks to the Dual Power POWDPG80400 pressure sprayer. The battery-powered 20V tool, provides a constant pressure of 5 bar and a flow rate of 500ml per minute. Therefore, it is the ideal power tool for weed control, disinfecting large surfaces and to water plants or fertilize them.

Thanks to the sprayer's D-shaped handle and carrying strap, it's easy to carry. The lock-on switch makes it an easy to use tool. Its 4 litre plastic tank is robust and light, making sure the pressure sprayer is easy to handle.

Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

Which Dual Power batter is compatible?

This 20V weed sweeper is compatible with both the 20V and 40V Dual Power batteries. The use of a 40V battery ensures an even longer battery run time, compared to the use of a 20V version.
