## GRASS TRIMMER 650W Ø320mm

FLOWER PROTECTION

EDGE ROLLER

ADJUSTABLE TRIMMING ANGLE

You can nicely maintain your lawn with this electric 650W grass trimmer. It allows accurate cutting of borders and places inaccessible for lawnmowers. The edge roller is your perfect guide. The POWPG40220 also trims small surfaces. No need to take out that big lawnmower, when you quickly want to cut the grass underneath the garden benches.

The device has a cutting width of 320mm and a double thread Ø1,5mm x 8m spool. It features an intelligent thread lengthening system, which will save you a lot of time and effort. For safety reasons you have to press the lock button before the motor starts running. Thanks to the flower protection you don't even have to worry about damaging your flowerbeds.

The Powerplus grass trimmer really aims at the professional's comfort. Its head and handle can be set in 7 and 5 positions respectively. Moreover, the trimmer contains a telescopic shaft, extendable from 1,11m up to 1,38m. Depending on the task you adopt the most comfortable working angle and you control the tool better. No cable will disturb you while trimming, because you clamp it in the cable relief.
