POWX0910 ROUTER 1200W

This 1200W router can be used for routing, grooving and engraving in all types of wood.

Our POWX0910 has a soft grip and easy lock for comfort and dust proof sleeves to protect the sliding posts against dust and debris.

With speed adjustment and precision depth adjustment you can set router features for every type of job. Surface decorations, edge profiling, routing grooves with the guide fence are only a small range of what you can achieve with this router.

In the strong BMC you find 6pcs router bits of Ø8mm, parallel guide and compass point.
