POWERPLUS XB

POWXBBOX10

DRILL/SCREWDRIVER 20V OSCILLATING MULTITOOL 20V

This handy tool set from Powerplus XB contains everything you need for all your detail, repair, drill, screw and improvement jobs. The set contains a cordless drill driver, an oscillating multi-tool, a 20V 2.0Ah charger and 20V 4.0Ah battery.

POWXB10010 drill driver 20V

This small and compact cordless 20V drill driver features a brushless motor that prolongs the tool's lifespan and is more powerful than a brushed motor of the same size. The motor produces a torque of 30Nm and a rotation speed of 1300min⁻¹.

The cordless Powerplus tool is as powerful as comparable larger tools. It has a drilling capacity of Ø10mm in steel and Ø25mm in wood. The built-in work light and soft grip provide the necessary comfort.

POWXB40010 oscillating multi-tool 20V

The cordless 20V oscillating multi-tool from Powerplus can be used for a wide variety of tasks. Despite its compact design, it features an extra powerful and durable brushless motor that requires little maintenance. The motor provides a rotation speed of 19 500min⁻¹ and 39 000 oscillations per minute. The speed can be adjusted to fit every material and all tool accessories.

POWXB90050 Battery 20V 4.0Ah

This 20V battery has a capacity of 4000mAh, which is large enough to finish all your jobs. It provides you with an even longer battery life in comparison with the 2.0Ah battery. The battery is compatible with all Powerplus XB tools. Checking the battery level is a breeze thanks to the battery level indicator. The charging time is about 120 minutes.
