Thanks to its compact design, you can wield this POWXG1045 mini-chainsaw with just 1 hand. Not only does that make the work go faster, it also provides the necessary working comfort and freedom of movement. Easily manoeuvre the machine in narrow, hard-to-reach areas, e.g. in between branches or bushes. In addition, the 12V chainsaw is battery-operated. So, no cables that get in the way or accidentally cut, no unpleasant odours either, and minimal noise.

To guarantee your safety, the machine is equipped with double kickback protection and a safety guard. Additionally, you lose no time adjusting the chain tension because you can do that without tools. For added user comfort, the chainsaw also has a soft grip handle.

The premium quality bar is 100 mm in length and fitted with a sturdy chain with 14 teeth. At a sawing speed of 6,7m/s, you can effortlessly cut through all kinds of wood. Ideal for pruning small branches and other fine sawing.

The POWXG1045 comes with an extra 12V battery and charger, so you can charge the second battery while you're sawing and simply continue working. Lastly, the chainsaw also includes a protective cover for the chain and bar, as well as an empty 20 ml bottle for oil.
