PRESSURE PUMP POWXG9573

This Powerplus pressure pump supplies your entire house with water at full pressure. It does so automatically, making it a low-consumption pump.

For pressure compensation, the pump is equipped with a large 19 litre water reservoir. The 1 000 W pump can draw up water from a depth of 7 m and deliver it to a height of 44 m.

The pressure pump is very durable. It has a built-in dirt filter and collects the water in a robust, steel tank.
